

Jacuzzi® Saunas

Infrared Sauna Collection

The Jacuzzi® Brand

The relentless motivation that drives Jacuzzi® forward is simple - to create wellbeing products that improve people's mental and physical state.

From the founding days of the brand in the 1940s, Jacuzzi® products are now manufactured in three continents and enjoyed by users across more than 100 countries.

By employing thousands of people around the world, and representing decades of innovation, design, performance and ease of use, we've earned the trust of millions, globally.

Heritage

The story of the Jacuzzi® brand began with a father's unwavering love for his son.

In the 1940s, Candido Jacuzzi's toddler son, Ken, developed rheumatoid arthritis. Driven with a purpose to help relieve his pain, Candido invented a hydrotherapy pump for the family bathtub.

The invention, known as the J-300™ pump proved a success.

Once the first sale of the pump was made in the 1950s, the industry for at-home hydrotherapy was brought to life.

Thriving and flourishing more than 65 years later, the Jacuzzi® brand is now a global wellness brand, manufacturing and selling hot tubs, swim spas, baths and saunas.

With over 700 global patents and industry leading innovations, Jacuzzi® is recognised as one of the world's leading wellness brands.

1900s

The Jacuzzi family departs Italy for the United States and transforms the aviation and agriculture industries.

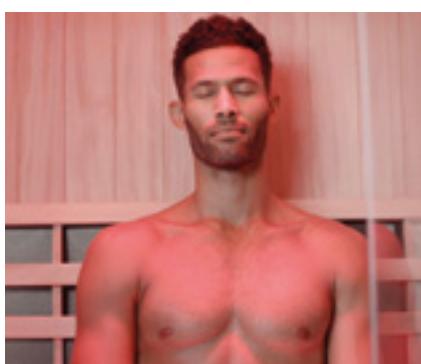

1940s

When Ken was diagnosed with rheumatoid arthritis, his father, Candido, invented a portable hydrotherapy pump. It was placed in the family bathtub to provide pain relieving hydrotherapy. This pump is known as the J-300™.

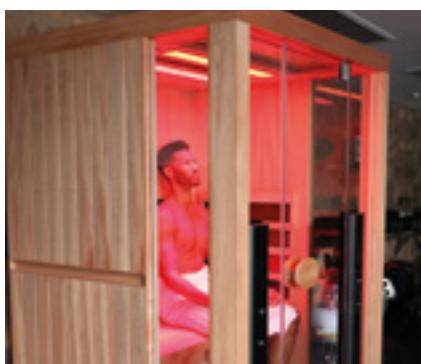

1950s

The J-300™ pump was presented on national daytime television show Queen for a Day. Boasting 20 million viewers, the Jacuzzi® brand became an overnight sensation.

Present

Jacuzzi® has been awarded over 700 global patents. This number continued to rise through our commitment to continue market-leading innovations across our wellness product categories.

Future

Jacuzzi® continues to develop products that have a positive impact on people's health and wellbeing. Jacuzzi® is recognised as one of the world's leading wellness brands.

Infrared Therapy

Jacuzzi® is the first and only brand to offer Infrared and Red Light therapy across a range of wellness products, from hot tubs to swim spas to saunas.

Infrared therapy utilises infrared light wavelengths, which are longer than visible light yet shorter than radio waves. As the body absorbs infrared light, it prompts the molecules in tissues to vibrate, producing warmth. This warmth penetrates deeply into tissues, reaching muscles, joints, and organs.

The deep heat from infrared therapy can promote an array of benefits. It aids in loosening tense muscles, alleviating pain and inflammation, enhancing blood circulation, and promoting efficient delivery of oxygen and nutrients to tissues.

The rejuvenating powers of Infrared and Red Light therapy work together deep beneath the skin's surface to relieve pain, improve range of motion, and reach a state of mindfulness.

Founded in research, you can be confident using Infrared and Red Light therapy to enhance your relaxation.

The rejuvenating power of Infrared.

The regenerative qualities of Red Light therapy.

Effortless Therapy

Jacuzzi® Infrared Saunas are developed in collaboration with medical professionals to provide the optimal combination of four therapies. This includes full spectrum Infrared, Red Light therapy, Medical Grade Chromotherapy and Vibrational Resonance Therapy all in the same experience.

Full Spectrum Infrared Therapy & Red Light Therapy - Exclusive to Jacuzzi®

Jacuzzi® has collaborated with medical professionals to design a range of saunas featuring Infrared Technology and deep Red Light, maximising the clinically proven therapeutic benefits of infrared. This advanced technology harnesses the penetrating power of full spectrum infrared waves to target deep muscle tissue. At the same time, the specialised Red Light gently enhances surface tissues and cells, providing a prolonged sense of revitalisation. Both these therapies combined bring:

Pain relief: Alleviates muscle and joint pain by increasing blood flow.

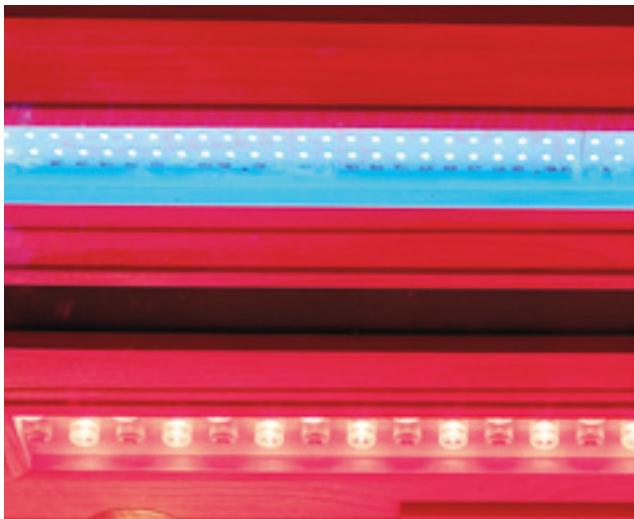

Improved skin health: Stimulates brighter and more supple skin.

Repairing properties: Promotes tissue repair and new cell growth.

Wellbeing: Enhances mood, energy, sleep quality, and reduces SAD symptoms.

Improved range of motion: Reduces muscle fatigue and helps to revive tired muscles.

Regeneration: Stimulates cellular metabolism and increases energy production.

Medical Grade Chromotherapy

Chromotherapy is the science of using wavelengths of colour light to affect your body and mind for improved health and happiness. Increasing evidence suggests that chromotherapy can help reduce stress, anxiety, depression, and other mood disorders or imbalances.

Jacuzzi® Infrared Saunas are equipped with medical grade chromotherapy lighting with 96 LED Lights in an array of 12 colours - red, strong green, strong blue, orange, green, blue, strong yellow, strong indigo, strong pink, yellow, indigo and violet to amplify these therapeutic advantages.

Combined with Infrared and Red Light therapy, chromotherapy is one of the most effective and non-invasive ways to repair the body.

Vibrational Resonance Therapy

As a standard feature, VRT uses sound waves to restore the body's balance and harmony. This therapy promotes stress relief, relaxation, pain reduction, mood improvement, and better sleep.

VRT combines elements of sound therapy, music therapy, and whole-body vibration as a safe and effective way to support and enhance overall wellbeing.

When our body breathes, it is simply more relaxed. By inducing calm and rhythmic vibrations, VRT enhances your infrared sauna sanctuary for better rest and relaxation.

Design and Build Quality

Jacuzzi® Infrared Saunas are designed for both domestic and heavy use indoor commercial settings, which ensures durability and longevity.

All Jacuzzi® Infrared Saunas come with a 5 year comprehensive warranty which covers parts and labour on the entire sauna for manufacturing defects.

Therapeutic Full Infrared Heaters

Jacuzzi® Exclusive and patented low EMF Combination Mica / Carbon Full Infrared heaters surround you in soothing infrared heat.

Built-In Ergonomic Backrest

Relax close to the soothing infrared heat against the chiropractor designed built-in ergonomic backrest.

Intuitive Controls

Digital keypad controls for ease of use.

Ergonomically Contoured Bench Seat

Unwind next to the calming infrared warmth provided by the chiropractor-designed built-in ergonomic contoured bench seat.

Premium Wood

Constructed from high-quality mahogany wood, which is resistant to high temperatures and is naturally anti-inflammatory and antimicrobial.

Enhanced Audio

Bluetooth and AUX inputs make it easy to connect, listen or charge your devices, and includes a subwoofer for a more immersive experience.

Commercial Grade Materials and Construction

Metal threshold, upgraded hinges, solid wood bench and a replaceable solid wood floor will withstand heavy sauna use.

Infrared Sauna

Collection

JS-1i ®

Dimensions (exterior): 114.3 cm x 127 cm x 198.12 cm
